Key questions defining research program:
1) Does myocardial fibrosis represent a fundamental disease severity marker in hypertrophic cardiomyopathy?
2) What is the comparative effectiveness of cardiovascular imaging modalities?

Key words describing research program:
1) Hypertrophic Cardiomyopathy
2) Cardiovascular magnetic resonance
3) Myocardial fibrosis
4) Comparative effectiveness

Titles for shovel-ready research projects:
1) The association between right ventricular function and diastolic dysfunction in hypertrophic cardiomyopathy

Data sources for shovel-ready research projects:
1) HCM database
